## Welcome to 3D Model Club

If you are looking for high quality art pieces crafted by real artisans you came to the right place. All our models are crafted in the traditional way by hand by expert sculptors to give it that unmistakable hand made look, which is almost impossible to reproduce with any CAD software available today.

**Incredible Offer Click the image below**

### Dogs Collection

We then use high resolution laser scanners to digitize our models. There is nothing stopping the real artist in you out there to hand finish our models to give it even more extra-ordinary look and detail that most computerized systems cannot handle.

You need to a flashplayer enabled browser to view this YouTube video  
3D Model Club supplies models for many industries including Signs, Architecture, Woodworkers, Jewelry and more. If you are jewellery company or a designer contact us today for your special one of a kind custom modelling needs.

What we aim to achieve is simple, let you and your clients experience from **Now to Wow** in a time efficient and cost effective way. 3D Model Club is open to all, members or non members who want the best masterpieces and unique designs to use with their projects. The majority of the models are carved at about 5 inches square. If you need to resize the models while keeping the relief with a reasonable detail you will need a decent CAD software. If you don't have access to a high end CAD software please let us know and we can resize the models to your final dimensions.

**All models are delivered in STL format, we can also deliver to you**
